

**Engineered to keep
farming running.**

Components for agricultural
vehicles and machinery.

Solutions you can rely on:

Anytime. Anywhere. And under any conditions.

It takes many steps to turn seed into a harvested crop. Season after season. That's why our solutions for agricultural vehicles and machinery are designed for performance and reliability. They are engineered to carry the load, to perform when it counts, to be trusted in every situation. Every day. Season after season.

Inside every great machine:

Our hidden champions ensure safe and comfortable operation.

Hoses and hose lines, drive belts, air springs or baler belts for nearly every agricultural application: Solutions from Continental are individually designed for the special requirements of seeders, cultivators, tractors, balers, harvesters and trailers. We offer custom-engineered solutions for OEMs as well as reliable and ready-to-sell replacement parts for distributors worldwide

As we understand the special requirements of the agricultural industry, we provide reliable solutions thanks to

- > more than 150 years of brand heritage in engineering and material expertise
- > leadership in innovation and technology
- > certified in-house testing facilities
- > materials expertise with thousands of compounding-mixtures

Combined competence.

All our products incorporate synergies from different areas of application.

Fluid Handling Solution

Oil, fuel, fertilizer, or hydraulic fluid: Our products transport every medium safely to its destination.

Dynamic & Suspension Solution

Agriculture is a tough business. Our products reliably dampen shocks and absorb vibrations.

Conveying Solutions

We leverage our decades of experience in developing conveyor belts for the mining industry to create superior products for agricultural applications.

Power Transmission Solutions

They transfer the power of the engine to the field and drive auxiliary units—thereby ensuring greater comfort and safety for the driver: Our drive belts.

Always at your side

We are internationally present in the EMEA region and always personally there for you.

All you need.

Benefit from a broad portfolio from a single source.

Conveying Solutions

Baler belts, swather and merger belts, pickup belts and draper belts

Fluid Handling Solutions

Thermoplastic hoses, rubber hoses and hose lines (e. g. for hydraulics, brake system, auxiliary hydraulic drive, hydrostatic fan drive, power steering, DPF, SCR, clutch, oil cooling, compressor, fuel supply, engine cooling, turbocharger lubrication)

Dynamic & Suspension Solutions

Sleeve air spring systems for cabins and seats, convoluted air springs for axles and special applications, rolling lobes for axles.

Power Transmission Solutions

Wrapped V-belts, banded V-belts, variable-speed belts and poly V-belts
